

DEPARTMENT OF THE AIR FORCE
MISSISSIPPI AIR NATIONAL GUARD
HEADQUARTERS 186TH AIR REFUELING WING (AMC)
MERIDIAN MISSISSIPPI

07 May 2014

MEMORANDUM FOR RECORD

FROM: 186ARW/EM

SUBJECT: Emergency Planning and Community Right to Know Act (EPCRA) 313 Reporting Threshold Determination

1. The 186th Air Refueling Wing Environmental Management Office (EM) has conducted a review of all operations at Key Field Air National Guard Base during calendar year 2013 involving chemicals identified under Section 313 of EPCRA. The purpose of this review was to determine whether or not any applicable thresholds were exceeded during this period which would require reporting through an EPA Form R.
2. No (non-exempt) manufactured, processed, otherwise use, or PBT chemicals or compounds were identified during this review as exceeding their applicable thresholds. Totals for fuel transfer operations to transient vehicles (otherwise use), items used in bulk, and chemical usage data from the AF EESOH-MIS system were used to calculate these figures. Any questions regarding this matter may be directed to the undersigned at 601-484-9809 or john.garrett@ang.af.mil.

A handwritten signature in black ink, appearing to read "John P. Garrett", is positioned above the printed name.

JOHN P. GARRETT, 1st Lt, MS ANG
Environmental Manager
